Final Tier 4

Building off the proven TNV design, Yanmar has achieved superior exhaust emissions thanks to common rail direct-injection, exhaust gas recirculation, precise ECU engine control and a diesel particulate filter. Yanmar engines are compliant with EPA Tier 4 and EU stage III B exhaust emissions regulations.

Now Even More Reliable

Yanmar’s already enjoys a reputation for superior starting characteristics. Now with an ECU-controlled common rail direct-injection system to assure more precise fuel delivery and control and a superior exhaust treatment system, you get increased fuel economy, reduced emissions and improved performance over a wide range of applications.

Better Fuel Efficiency, Fewer Emissions

Yanmar already enjoys a reputation for superior starting characteristics. Now with an ECU-controlled common rail direct-injection system to assure more precise fuel delivery and control and a superior exhaust treatment system, you get increased fuel economy, reduced emissions and improved performance over a wide range of applications.

**Lubrication System**
11.2L Capacity Deep Oil Pan

**Electrical System**
12V, 55A Alternator

**Fuel System**
Common Rail System

**Cooling System**
Water Pump, Belt-driven

**Power Take Off**
FWH: SAE #4 t=158
FW: SAE 10'
